1. Go to Start, Settings, Control Panel, click on Network and Internet

2. Click on Network and Sharing Center
3. Click on Set up a connection or network
4. Select Connect to a workplace, click on Next.
5. Click on Use my Internet connection (VPN)
How do you want to connect?

- Use my Internet connection (VPN)
  Connect using a virtual private network (VPN) connection through the Internet.

- Dial directly
  Connect directly to a phone number without going through the Internet.

What is a VPN connection?
6. Enter **146.245.9.59** as the internet address and **BC-VPN** for the destination name.

7. Put in your BC Username and Password, Click on Connect.
8. You will see if you are successfully connected.
9. Select a location for the BC-VPN network. Click on Work.
10. You will see the following screen. “Successfully set network settings”
10. You may put a shortcut on Desktop
Go to Network and Sharing Center, click on Manage Network Connections
11. Drag the BC-VPN icon and drop it on the Desktop
